Professional Summary

Passionate Frontend Developer with hands-on experience building responsive, user-friendly web applications using HTML, CSS, JavaScript, and Angular. Proven ability to translate creative concepts into functional designs with strong attention to detail and user experience. Experienced in DOM manipulation, event handling, and modern frontend frameworks.

Technical Skills

Frontend Technologies: HTML5, CSS3, JavaScript, Angular, React.js, Tailwind CSS, Bootstrap
Core Competencies: Web Design, Responsive Design, DOM Manipulation, Event Handling, REST API Integration
Programming Languages: JavaScript, MYSQL, Express.js
AI Tools: Github Copilot, Blackbox AI, Gemini AI, Claude AI, Chatgpt, Lovable AI, Firebase Studio, Google AI Studio
Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Firebase, Supabase
Additional Skills: Cross-browser Compatibility, Web Performance Optimization, Client Management

Professional Experience

Frontend Developer – Team Lead, Client Management
Nth Space Solutions Private Limited

October 2025 – Present
Bengaluru, Karnataka, India

- Develop and maintain responsive web applications using modern frontend technologies including HTML, CSS, JavaScript, and React.js framework
- Manage client communications and project deliverables, maintaining strong relationships and ensuring timely completion of milestones
- Implement best practices for code quality, performance optimization, and accessibility standards to enhance application functionality
- Collaborate with cross-functional teams to translate business requirements into technical solutions, ensuring seamless user experiences across devices

Key Projects

Restaurant Website | *React.js, JavaScript, Tailwind CSS, Firebase, Firestore, Vercel*

2026

- Built a fully responsive restaurant web application using React, Online food ordering directly from the website
- Implemented reusable components and clean UI design, Smooth and intuitive payment flow for orders
- Improved user experience with structured layout and smooth navigation, Admin panel to track customer orders and website activity
- Deployed the project on Vercel ensuring high availability

Swiftora – Aggrigator platform | *React.js, JavaScript, Tailwind CSS, Supabase, AWS (Current Working)*

2026

- Developed Swiftora, a logistics and shipping management web application with real-time shipment tracking features
- Created dashboard modules for tracking deliveries and managing orders efficiently
- Worked on frontend architecture and API integration for seamless data handling
- Integrated REST APIs for order management, shipment updates, and authentication
- Used Git and GitHub for version control and project management

Personal Portfolio Website | *HTML, CSS, JavaScript, Vercel*

2025

- Built a professional portfolio website showcasing projects, skills, and professional journey with modern design aesthetics
- Implemented responsive design ensuring optimal viewing experience across desktop, tablet, and mobile devices

- Integrated smooth animations and interactive elements to enhance user engagement and navigation

Edureka Clone | *HTML, CSS, JavaScript, Angular, Netlify*

2025

- Recreated the Edureka e-learning platform interface, replicating complex layouts and interactive components
- Developed reusable Angular components for course listings, navigation, and user interface elements
- Demonstrated ability to reverse-engineer and implement sophisticated web applications with attention to detail

Guess My Number Game | *HTML, CSS, JavaScript, Netlify*

2024

- Created an interactive number guessing game featuring dynamic feedback, score tracking, and game state management
- Implemented game logic with JavaScript, utilizing conditional statements, loops, and event-driven programming
- Designed engaging user interface with real-time feedback and visual cues to enhance gameplay experience

Education

Vaagdevi Institute of Technology and Science

Proddatur, Andhra Pradesh

Bachelor of Technology in Computer Science Engineering

December 2021 – April 2025

- Affiliated with Jawaharlal Nehru Technological University, Anantapur
- Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Web Technologies, Software Engineering

Narayana Junior College

Kurnool, Andhra Pradesh

M P C

June 2019 – March 2021

Sri Narayana Vidhya Vihar High School

Atmakur, Andhra Pradesh

SSc

June 2018 – April 2019
